1943-2010

OUR HISTORY

National Band & Tag Company was founded in 1902 by Joseph Haas of Newport, KY. Much like other pioneers of that period, he opened a small shop in an abandoned barn in Newport, KY.

Haas intended to manufacture poultry leg and wing bands. He knew little about poultry farming, but had been informed that breeders were improving their flocks and it was necessary to use some sort of marker to distinguish one fowl from another. Visualizing the possibilities of a new industry, Haas went to work designing a few patterns of bands. With recommendations from customers and experimental projects, he was able to come up with bands that worked.

By 1914, the business began to grow. To keep up with the increase in business, he moved to a larger garage in Newport, KY. Other animal identification tags were added to the product line, including livestock tags marketed under the Hasco name.

Over the years more property was acquired and today National Band & Tag occupies almost an entire block in Newport, KY.

STATEMENT OF PURPOSE

VISON

We live for the day when... The spirit of our unbreakable family business everyone reach. Trust is built into every solution we produce from concept to delivery. National Band & Tag is the 1st choice for identification bands and tags.

MISSION

We are a U.S. manufacturer providing unique and innovative identification solutions for many purposes. Since 1902, we’ve been building our business to SOAR™:

• Sequential numbering and custom design for accurate identification
• On-time and upfront delivery expectations
• Agile and solution-centered customer service
• Revolution in-house, to save you time and money

VALUES

We are a responsive and resourceful family manufacturer, earning trust as we faithfully continue our legacy of:

• Planning success for generations to come
• Delivering accuracy with every order
• Operating with honesty and integrity
• Adapting our products across multiple categories to provide the best solution

OUR TEAM

Please note: Tags in this catalog are not to scale. Use the listed dimensions for accurate sizing. Unit of measurement for this catalog is inches unless otherwise noted. All weights are in pounds.
**PRICING** – THE COLOR PRICING CHART IS USED FOR DOG & CAT TAGS AND INDUSTRIAL PLATE TAGS

Price includes tag, stamp & consecutive numbers. For laser etching and stamped logos, please call for quote. Special Charges could be applied to these tags. Prices for tags are based on material and size grouping. Each change in material is priced separately. For 20,000+ tags, call for quote. See page 12 for stamped metal pricing.

**INDUSTRIAL & COMMERCIAL TAGS**

**CUSTOM METAL PLATE TAGS**
- Black, stamped, laser etched, branched, sequentially or custom numbered, use your logo or custom artwork.

**ASSET TAGS & LABELS**
- Heavy duty, durable Asset Tags to help identify and track your company’s valuable assets.

**ELEVATOR, WELL & INSPECTION TAGS**
- Verify your inspections with customized Inspection Tags. Weld/Pewter Tags, and Elevator Tags.

**POWER POLE TAGS**
- Identify utility poles and collect data in the field with custom Pole Tags.

**ALUMINUM CABLE TIES (TONGUE & SLOT TAGS)**
- Hold wires and cables together for organization. Identify wires and assets quickly.

**CHAIN SLING & WIRE ROPE TAGS**
- Meet OSHA requirements, be compliant, and ensure safety around wire markers.

**WIRE MARKERS**
- Keep wires, cables, and hoses organized with wrap around wire markers.

**THIN, FLEXIBLE METAL TAGS**
- Thin gauge tags are available in .016" Aluminum and .014" Brass. Great for meters, wood poles, etc.

**VALVE TAGS**
- Use Valve Tags to easily identify and mark utility poles, water meters, wood poles, etc. around your facility.

**CREMATORY TAGS**
- Prevent loss of traceability with these durable, stainless steel Crematory Tags.

**SURVEY TAGS**
- Dots used by land surveyors to mark key survey points on land and other property.

**PLUMBER TAGS**
- Identify hot water, cold water, hose-bib, and gas main shut-offs, all while promoting your company.

**LEAD APRON ID TAGS**
- Pass Joint Commission Inspections with tags for your lead aprons and other lead garments.

**TAMPER RESISTANT SECURITY SEALS**
- Tamper resistant identification to protect and identify important assets for your business and aid in annual inspections.

**WRITE-ON TAGS**
- Tags you can personally engrave to identify.

**ASSET LABELS**

Style 3602 Custom laser etched and custom shaped unique identification labels. We specialize in small production runs. UDI/Military grade 3M™ 7847 polyacrylic matte black stock. See website for more info. Call for Quote.

**BLANK TAGS**

Any tag in this catalog can be made blank! Plastic tags can be written on with a permanent marker and metal tags can be hand stamped. See our website for more info on our blank stainless steel Quick Ship tags. Styles shown here are our most popular blank tag styles.

**BARCODED ASSET TAGS**
Linear barcodes, QR codes, and 2D Data Matrix codes can all be laser etched on your tag.

**CUSTOM LOGOS & ARTWORK**
Get your logo, artwork, barcode, number, text, etc. all on your tag.

**FOOD GRADE STAINLESS TAGS**
Use 316 Stainless Steel in your food processing facility to ensure health safety. Stands up to chemicals, solvents, and will not corrode.

**ADHESIVE BACKED TAGS**
Identify your company’s electronic equipment and more using these durable, highly readable tags with adhesive backing. (Pg. 13 for more info.)

**MEDICAL CASE TAGS**
Ensure accurate identification of your medical equipment by attaching durable metal tags attached to your sterilization containers.

**EQUIPMENT TAGS**
Label and track all your equipment and machinary with durable metal tags available for color coordination.

**BOAT HULL (HIN) TAGS**
Get your 12-digit HIN tag stamped or laser etched and meet Coast Guard requirements for your boat. Pricing: $30 for 1 tag, $36 for 2 tags. See website for more info.

**MEDICAL ASSET TAGS**
Get blank tags in any material and stamp your own info using our hand stamps. More on page 20.

**STAMPED ASSET TAGS**
Any tag can be stamped with your custom info and sequentially numbered.

**LASER ETCHED ASSET TAGS**
Laser etching is ideal for creating custom numbered asset tags and complex designs.

CUSTOM LASER ETCHED TAGS

LASER ETCHING MAY BE A SOLUTION FOR YOU

We can make anything from blank tags to barcodes to complex layouts with logos. If you can dream it, we can probably make it.

MATERIAL OPTIONS

UV Stable Black Aluminum
Stainless Steel
Plain & Colored Aluminum
Brass
Plastic/Vinyl
Heavy Duty Labels

Our newest material - It won’t fade in the sun!
Our most heavy-duty material that will last in harsh environments.
10 different colored aluminum options available plus plain.
Brass is a great option for highly visible engraving.
Laser marked plastic and vinyl tags are durable and flexible.
Custom military-grade 3M™ 7847 polyacrylic matte black stock asset.

LAYOUT OPTIONS

Text Only
Text & Logo
Complex Layout
Hybrid (Stamped & Laser Etched)

BARCODE GUIDE

LINEAR BARCODE

- 1D Barcode
- Can be scanned with a 1D scanner and most 2D scanners
- Can encrypt the alphabet, digits 0-9, and special characters: ~-, %, +, /, •
- Uses 9 elements per character (5 bars and 4 spaces)
- Larger in size
- Great for encoding short serial numbers
- Code 128
- Can be encoded at 128 ASCII symbols
- Uses 6 elements per character (3 bars and 3 spaces)
- More space efficient
- Great for encoding long strings of information

BARMODE BARCODE

- 2D Barcode
- Can contain up to 1,335 alphanumeric characters
- Great for encoding large amounts of information on a small amount of space
- Most secure barcode available
- Can be read with a smartphone or 2D scanner

LOGOS, FONTS & DATA TRANSFER INSTRUCTIONS

Logos: The original graphic must either be created as a black and white vector file (AI or EPS) or converted from another format into a black and white high resolution (800 dpi). (These instructions apply for stamped logos as well).

Fonts: All True-type fonts are available.

Data Transfer: Microsoft Excel files must be saved as a MS-DOS .TXT file. Do not use leading spaces, delimiters, commas or other characters that you do not want to appear on your tags.

BARCODE DENSITY / SHORTENING YOUR URL

Long URLs (ie; many characters) mean you will have a dense barcode, which is more difficult to read, especially with a low-quality imager such as a smartphone app.

To change your link to a less dense barcode, follow these steps:
1. Copy your link.
2. Go to https://bitly.com/.
3. Paste your link in the box at the top right to shorten.
4. Copy the new link, paste in your file to replace long link
(See www.nationalband.com/barcode-density for more information on shortening your URL).

BARCODES & SCANNERS:

Laser etched barcoded tags are designed to perform in a wide variety of conditions and environments. Laser etched barcodes perform differently than printed barcodes because they are physically etched into the surface of the material. It is always best to determine if your scanner will adequately read the tags before and after submitting them to your specific environmental conditions. For your convenience, we pass on our barcode equipment discounts to our customers and distributors.

*$29.00 minimum per order

* Optional W turbulent Charge - $12/1000

# No trade discounts on Federal Sizes

REPLICA BANDS
Style: 1242
Material: Aluminum
Pricing: $550 for the first band, and $25 for each additional one, if it is the same size and has the same stamping with a different number and probe only. If the different size and stamping then it is $25 each. Reward bands and Jack Miller bands cannot be duplicated. All metal band steel bands can be duplicated only on aluminum bands.

How it works:
1. You report the band to the USGS Bird Banding Laboratory.
2. They send you a Certificate of Appreciation.
3. You send a copy of your Certificate to us along with your order.
4. We confirm it with the USGS.
5. You get bands that look exactly like the one that was on your bird.
